

**AMAYA SOLUTIONS, INC.  
DBA AMERICAN WATER CHEMICALS**

**CONFLICT FREE MINERALS STATEMENT  
January 2023**

The exploitation and trade of certain minerals originating in the Democratic Republic of the Congo and surrounding countries are helping to finance armed conflict characterized by extreme levels of violence. Tin, tantalum, tungsten and gold are commonly referred to as "conflict minerals" regardless of their country of origin.

As required by the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, the U.S. Securities & Exchange Commission ("SEC") has adopted a rule to bring greater supply chain transparency to the use of conflict minerals originating from the Democratic Republic of the Congo and surrounding countries.

Amaya Solutions, Inc., DBA American Water Chemicals does not source or use any of the identify minerals in our formulations and works with our supply chains to verify that Suppliers are abiding by the same transparency rules.
